Japanese: elementary **A2**

ABOUT ME

I am 4th year Computer Engineering student interested in applying for the **remote working position** with international environment. I would like to work with **Python/C++** or in **Java/JavaScript/SQL** as well as **develop new programming skills.** Moreover, my studies are in **English language**, therefore I efficiently utilize it during work and I communicate well with my team. After graduation, I plan to continue working and relocate to my apartment in Poland.

WORK EXPERIENCE

◻ **Intern: 2022**   MBS Systems s.c.   / Elbląg / **Poland**
July – September [3 months]

Technologies: Python, Django

Writing unit tests for Django models with test driven development. Gained experience in <u>foreign work environment</u>.

◻ **Intern: 2021**   Netas Telecommunication Inc. / Ankara / **Turkey**
July – September [2 months]

Technologies: Javascript, Node.JS, Gherkin, Cucumber.JS

Writing end-to-end tests for Export Compliance Screening System in Gherkin language, using Cucumber.JS API functions in Node.JS

EDUCATION

University: **Middle East Technical University**   / Ankara / Turkey
COMPUTER ENGINEERING
studies in **English** language
4th year student

High School: Gazi Anatolian High School

PROJECTS

◻ <u>Formula 1 Fantasy League</u>: The Excel and Python based online guessing game which requires budget management and strategy skills, first and only one in Turkey, played by hundreds of people.

◻ <u>Formula 1 Elo Project</u>: The analysis of 70 years of Formula 1 qualifying data using Python's Pandas library and Elo system, in order to rank the fastest drivers in history.

◻ <u>Flagsweeper</u>: The multiplayer version of Minesweeper, written in Python's PyGame library.

ACTIVITIES & HOBBIES

☆ Interested in Formula 1 and other motorsports - their history and data analysis. I've written many articles about Formula 1 on:
http://turkf1.com + http://damalibayrak.com

☆ METU Amateur Astronomy Society - management member, responsible for design and editorship of our website: http://gokyuzu.org

☆ Guitar player in the metal band called Cainodium. Interested in songwriting, performed several times on stage.
